UNITED STATES DEPARTMENT OF AGRICULTURE

FOREWORD

The accomplishments of the Vermont State and County Agricultural Stabilization and Conservation Committees during 1974 are presented in this annual report.

The information relative to the various ASCS programs administered in Vermont provides a reference for readers and explains to the people we serve how USDA programs are handled by our organization.

We wish to pay tribute to the dedicated State, county and community committeemen who make the operation of these programs so successful. We also wish to comment the work of our efficient ASCS County Executive Directors.

We are proud of the fact that Vermont has been one of the leading states in (ACP), REAP and RECP participation. If any reader has any questions about our program, please feel free to contact us.

Vermont State ASC Committee
(For 1974)

ADMINISTRATION

The Vermont State ASC Committee is responsible for the administration of ASCS activities assigned to them by the Department of Agriculture.

These programs are administered in Vermont at all levels in the organization by ASC farmer committeemen. Farmers in each community elect annually from their number a community committee of three to carry out the programs and do the field work in their community. Any person is eligible to vote in an ASC community election if he meets any of the following requirements:

- A Is of legal voting age and has an interest in a farm as owner, tenant or sharecropper.
- B Is not of legal voting age but supervises and conducts the farming operations on an entire farm.
- C Is eligible to participate in any ASCS program that is provided for by law regardless of the status of funding.

The community committeemen also serve as delegates to attend a county convention at which a county committee of three is elected. The county agricultural agent serves as ex officio member of the county committee.

The county committee administers the programs at the county level within the policies and guides set up by the State Committee. Each county committee employs a full-time county executive director who is in charge of the day-to-day operation of the county ASCS office.

The State Committee is appointed by the Secretary of Agriculture. It is responsible for the administration and operation of all applicable programs in the State. This Committee determines the policies and makes recommendations to be carried out by a State Executive Director who is the administrative head of the State ASCS Office.

Supervision of our county offices is divided between two District Directors, George T. Hart, District 1, and Edson E. Gifford, Jr., District 2. Following is the District-County relationship.

1973 REAP

This program was announced late in November of 1972 and cancelled on December 22 of that year. It was reinstated on March 12, 1974. Vermont's initial allocation was \$638,000. Later our allocation was increased to \$1,065,000. A tabulation entitled "1973 REAP Practice Assistance by Counties" appears later in this report.

1974 RURAL ENVIRONMENTAL CONSERVATION PROGRAM (RECP)

Administration

The Rural Environmental Conservation Program (RECP) was authorized by the Agricultural and Consumer Protection Act of 1973 and the Soil Conservation and Domestic Allotment Act, as amended. The program provides for cost-sharing on both annual and long-term basis. It is designed to carry out needed conservation and environmental measures on farms, wetlands, forests and other specified lands.

For 1974, conservation and resource protection practices were available on both annual and long-term agreements. Incentives for tree planting were authorized to encourage timber growth and designed for the development, management and protection of non-industrial private forest lands through the Forestry Incentives Program (FIP) in designated Vermont counties.

A summary by counties for LTA's and FIP follows this page.

Tabulations of the 1974 RECP practices by counties are also a part of this annual report.

<u>County</u>	<u>1974 FIP</u>		<u>1974 LTA</u>

Technical Service Agreements (1974 Program)

All counties entered into agreements with the Soil Conservation Service for the purpose of obtaining technical assistance with practices for which they have technical responsibility. No agreements were authorized with the Vermont Forest Service. The amounts transferred under these agreements are listed below:

<u>County</u>	SCS-5% <u>1974</u>

EMERGENCY ACTIVITIES

Emergency Conservation Measures

As a result of the June-July 1973 flood, the Vermont State Committee requested the activation of the ECM program in Vermont. This program shares the cost of debris removal, streambank work and other emergency practices. The program was made available to all Vermont counties except Grand Isle.

Through December 1974, there were 902 farms enrolled resulting in requests for \$2,000,000 in assistance. Over \$1,000,000 has been approved and approximately \$900,000 in payments have been made. It is expected that \$1,175,000 will be paid before the program is completed. A tabulation entitled, "1973 ECM Practice Assistance by Counties" is included in this report.

Fuel and Fertilizer

ASCS offices in Vermont have monitored prices and supplies of fuel and fertilizer throughout 1974. ASCS personnel provided information and forms to agricultural users of petroleum products to assist them in obtaining the necessary fuel to produce food and fiber.

USDA Emergency Board

The State ASCS Executive Director is chairman of the State USDA Emergency Board, and the county executive directors are chairmen of County Emergency Boards. ASCS State and county offices act as support offices for emergency activities of the Department.

In addition to acting as chairmen and support offices of the Boards, ASCS has the responsibility of assisting in food production and distribution through the wholesale level in case of national emergency. Much planning has gone into this work in order that we may be prepared in any emergency. We are working closely with State and local Civil Defense officials in these activities. Community committeemen can help by assisting in local Civil Defense activities.

WATER BANK PROGRAM (Addison County only)

This program is designed to encourage preservation of wetlands and the providing of needed habitat for nesting and breeding places for migratory waterfowl. It provides for a small rental payment each year to eligible farmers for setting aside "wetlands" on their farms for waterfowl use.

In 1974 Addison County had 46 contracts on 3076 acres. Payments amounted to \$23,672.

1974 FEED GRAIN PROGRAM

The Agriculture and Consumer Protection Act of 1973 is applicable to the 1974-77 feed grain crop years. The Act specifies the feed grains to be corn, grain sorghum and, if designated by the Secretary of Agriculture, barley. The 1973 Act established a "target price," approach for the 1974-77 feed grain crops, with deficiency payments and made provisions for payments if producers are prevented from planting any portion of the farm acreage allotment because of disaster condition or if there is crop loss because of disaster conditions. The program is voluntary. It is the CCC's responsibility to review these allotments. Following is a summary showing feed grain allotments and disaster payments paid to producers during 1974.

1974 FEED GRAIN PROGRAM

<u>County</u>	<u>County Allotment Acres</u>	<u>Farms Participating</u>	<u>Allotment Acres Affected by Prevented Planting</u>	<u>Allotment Acres Affected by Low Yields</u>	<u>Total Payment</u>

1/ Includes 107 acres held in the State reserve.

The first part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise record of all financial activities, including sales, purchases, and expenses. This will allow the company to track its performance over time and identify areas for improvement.

Financial Statement

Income Statement		Balance Sheet		Notes
Year	Amount	Year	Amount	
2010	100,000	2010	100,000	
2011	120,000	2011	120,000	
2012	150,000	2012	150,000	
2013	180,000	2013	180,000	
2014	200,000	2014	200,000	
2015	220,000	2015	220,000	
2016	250,000	2016	250,000	
2017	280,000	2017	280,000	
2018	300,000	2018	300,000	
2019	320,000	2019	320,000	
2020	350,000	2020	350,000	

The second part of the paper discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise record of all financial activities, including sales, purchases, and expenses. This will allow the company to track its performance over time and identify areas for improvement.

CROPLAND ADJUSTMENT PROGRAM

The Food and Agriculture Act of 1965, among other things, provided for long-time diversion of land currently being used for the production of surplus crops to protective uses.

This program helped farmers to divert cropland to protective conservation uses under long-term agreements. Land was taken out of crop production in 1966 and 1967 for periods of five to ten years. Participants received adjustment payments calculated as a portion of the value of the crops which otherwise would be produced on the land. They were eligible for conservation cost-share payments on the diverted land. The option of continuing or terminating agreements was continued in 1974. Seven farms were authorized to harvest hay on 322 acres.

The status of agreements as of 12-21-74 is:

<u>County</u>	<u>Number Agreements</u>	<u>Acres Diverted</u>	<u>Annual Payments</u>
Addison	0	0	\$ 0
Bennington	9	276	4175
Caledonia	1	56	250
Chittenden	6	170	3962
Essex	1	85	677
Franklin	0	0	0
Grand Isle	3	65	1649
Lamoille	0	0	0
Orange	5	68	2230
Orleans	2	41	582
Rutland	5	127	1488
Washington	1	5	40
Windham	1	28	960
Windsor	<u>1</u>	<u>14</u>	<u>512</u>
Totals	35	935	\$16525

Practice payments paid through 1974 were \$2051.

PRICE SUPPORT PROGRAMS

In the field of price support, the Vermont ASC Committee has concerned itself with keeping up to date on the over-all activities of the various price support programs that would affect the State's agriculture, such as those for dairy products, honey, wheat, feed grains and the purchase and loan programs. Information on these programs has been passed along to the county offices and farmers have been kept informed.

1974 WHEAT PROGRAM

The Agriculture and Consumer Protection Act of 1973 is applicable to the 1974-77 wheat crop years. The 1973 Act initiated a "target price," approach for the 1974-77 wheat crops with deficiency payments as required, and made provision for payments if producers are prevented from planting any portion of the farm acreage allotment because of disaster conditions, or if there is crop loss because of disaster conditions.

The National 1974 wheat allotment is 55 million acres. This allotment represents the number of harvested acres of wheat, based on the estimated National yield, to produce the quantity of wheat (less imports) that will be utilized domestically and for export during the 1974-75 marketing year. This program is voluntary.

In Vermont there are 22 farms with wheat allotments - 5 in Addison County; 11 in Chittenden County; and 6 in Grand Isle County. No wheat farms received disaster payments in 1974. Wheat allotments for Vermont are: Addison - 197, Chittenden - 86, and Grand Isle - 29 acres.

WOOL PROGRAM

We administer the National Wool Incentive Program which was originally authorized by Congress in 1954. The purpose of this program is to assure an adequate supply of domestically grown wool in this country.

A summary of the 1974 wool program for Vermont shows that 93 applications for shorn wool were received from sheep producers. Applications for payment on 23,665 pounds of shorn wool resulted in payments of \$3213. Payments of \$104 were made on 20,120 pounds of unshorn lambs. The payment rate is set each year and is dependent upon the average price received by all wool producers in the United States who apply for payment. The rate of payment is applied to each producer's net proceeds received for wool. This results in the producer's attempting to get the best possible price for his product.

The National support rate for 1974 was 72¢ a pound.

The program has been continued by Congress through 1977.

BEEKEEPERS INDEMNITY PROGRAM

The program was originally authorized by the Agricultural Act of 1970 and was continued through 1974.

A beekeeper suffering a loss of bees through no fault of his own as a result of the use of pesticides near or adjacent to where his beehives are located may file a claim with the County office.

Committeemen should inform beekeepers to file promptly following each loss. For current losses, the owner will have to have a signed statement from a State inspector certifying the loss.

To date, we have had 22 claims paid with payments amounting to \$16,295. 19 of these applications were from Addison, 2 from Bennington, and 1 from Windham Counties.

There was one claim in Vermont during 1974 amounting to \$105.00 paid to a Bennington County beekeeper.

INFORMATIONAL ACTIVITIES

The memorandum of understanding with the Vermont Extension Service to edit and arrange for final release to State and county newspapers information concerning ASCS programs in Vermont was continued. This method is very satisfactory, and the Vermont Extension Service information staff is always cooperative in this respect.

Radio tapes were made during the year using Extension Service facilities and these were released to radio stations throughout Vermont. In addition, several radio programs were arranged for at the county level and were participated in by State office personnel and local ASCS people.

The monthly newsletter (green sheet) distributed to county and community committeemen and cooperating agencies was continued in 1974. These letters are a method of pointing out the highlights of ASCS programs in Vermont.

At the beginning of programs, and on other occasions as needed, suggested county news releases were provided to county offices. These were adapted locally and released for publication through the County Extension Office. In addition, timely ASCS news and announcements were disseminated locally through the county agent, either in his radio program, newsletter, or column in the newspaper.

Washington continued to supply Vermont radio stations with weekly tapes. These tapes deal with ASCS current developments relative to agriculture in this part of the United States. The 3 to 5 minute narrations do a good job in helping to keep our agricultural community informed.
